

TECHNICAL DATA

WEX-BRIGHT CONCENTRATED NEUTRAL CLEANER

APPEARANCE: TRANSPARENT AMBER LIQUID

ODOR: LIGHT SASSAFRAS

NON-VOLATILE MATERIAL: 30.0 TO 30.5%

DETERGENT TYPE: NATURAL SOAP, BIODEGRADABLE

FREE ALKALI: 0.5% MAXIMUM

FREE FATTY ACID: NONE

FLASH POINT: ABOVE BOILING

pH of CONCENTRATE: 10.5

pH of USE SOLUTION: 10.2 + 0.2

WEX-BRIGHT

CONCENTRATED NEUTRAL CLEANER

Designed for all types of Floors, Wall and Equipment Cleaning

Use **WEX-BRIGHT CONCENTRATE TO MAINTAIN A HIGH SHEEN ON FLOORS.** We recommend using 4 to 6 ounces per gallon of water. This procedure eliminates the need for using spray buffing compound. At this high concentration there will be a film left on the floor after either damp mopping or using an automatic scrubber. When the floor has dried, you will notice a dull film. Use your high speed automatic machine to buff this film. The floor will have a high sheen. You must either damp mop the floor or dispense it through your automatic machine. The product cannot be sprayed to obtain the best results. This procedure will almost eliminate any type of build up on baseboards or corners. It will not be necessary to restrip the floor often because we are using only a detergent formulated with special oils that can be cleaned with very light scrubbing. For optimum results use with Duro-Wex or WexTreme floor finish.

DIRECTIONS FOR USE

AUTOMATIC FLOOR SCRUBBERS

Use WEX-BRIGHT in Automatic scrubbing machines at a dilution of 1:64 (2 ounces to each gallon of water) for cleaning vinyl, asphalt, rubber and other resilient floors. In addition, WEX-BRIGHT is an excellent cleaner at the same dilution for terrazzo, ceramic tile, concrete and other hard surface floors.

FOR PRESSURE WASHERS AND SPRAYERS CLEANERS

Use WEX-BRIGHT at a dilution of 1:128 (1 ounce per gallon of water) in both low and high pressure washers. The low viscosity of WEX-BRIGHT makes it particularly well suited for siphon-type manual and automatic washing equipment.

FLOOR MOPPING AND MANUAL CLEANING

Use WEX-BRIGHT at a dilution of 1:128 (1 ounce per gallon of water) for all wet mopping, damp mopping and manual cleaning. Because WEX-BRIGHT is a neutral cleaner, it is free of harmful alkalies, acids and abrasives, and can be used on all surfaces suitable to cleaning with water alone. It is also very mild to the skin.

**WEX-BRIGHT is especially suited for TERRAZZO, VINYL, TILE, RUBBER TILE,
PAINTED WALLS and VARNISHED WOODWORK**
